

Dear Dennis and Gerry,

12/16/95

I'd thought I'd cleaned all I was writing on up but yesterday morning, when I found the enclosed ^{that I use} copies, I realized I'd forgotten what I was expanding Senator Russell Dissents into. I did that writing some time ago and do ^{not} remember whether I intended this to be the entire chapter or did not complete it. I was the last writing I did on that. I send you each a copy on the chance some of it may be use in your thinking about your writing plans.

I started to read and correct it yesterday when Nicole, of Hana's restaurant, phoned to tell "il she had a quantity of a vegetable beef soup for her and it as if we could have someone pick it up. She specifically said for us not to come to the restaurant because the owner had not cleared the parking places. When I asked if outside the parking spots it was safe and could I drive there she said 'a she' bring the soup to us. About ^{two} gallons of it! "il has all we'll not use in a ^{few} days in the freezer.

"il had not been out for a while so on the way home we did some shopping. The mail had come before we returned. There is in it a notice of ^a certified letter from "Deke," which I took to be from Carol. So, I ^{phoned} the post office in our part of town and asked when I could come in and get it, giving them my name, that of the carrier and of our route. They told me so I was there then. To stand and stand and stand in the Xmas-rush lines only to be told that the carrier was working out of the downtown post office this week. By then my legs were in worse shape than I can recall from all that standing, which I'm to avoid, and I did not dare do anything but return home. It should be delivered today, when I'll mail this. I'll then write Dennis or if she finally came across with the disks, send them. But they'd not ~~go~~ out now until Monday.

My legs are still giving me much trouble today and not having heard a word from her have no indication of what she sent certified.

I'd asked Jerry to phone her because I do not want her to be hurt. All I want is what she has of mine that she has refused to return. He was going to try to indicate to her what would happen when I do what if I must - will do. But he'd not gotten her on the phone. So, it cannot be from his call.

With this about Robert Oswald in the back of my mind I think I intended adding direct quotes from the LOOK article.

Best,
